Diabetes Management Center
Our mission is to provide team-based, comprehensive care that emphasizes self-management to improve your well-being and prevent complications.

Diabetes Management Center
Located in the Billings Clinic Research Center at 1045 N. 30th St.
The Diabetes Management Center is right for you if you:

- Have type 1 or type 2 diabetes
- Are newly diagnosed or have poorly controlled diabetes
- Have difficulty controlling your cholesterol and/or high blood pressure
- Use insulin pump therapy or are interested in insulin pump therapy
- Are interested in newer therapies or participating in clinical research
- Are at least 18 years old
- Have a referral from your health care provider
- Can benefit from diabetes self-management training
- Want a team approach to care
- Would like to receive your diabetes care and education via telemedicine

Our Team
The Diabetes Management Center provides patient-centered care by utilizing a team approach. Diabetes health care professionals include:

- Endocrinologist
- Nurse Practitioner
- Physician Assistant
- Diabetes Educators – Registered Nurses, Registered Dietitians and Certified Diabetes Educators
- Licensed Practical Nurses (LPNs) and Certified Medical Assistants
- Diabetes Life Coach/ Licensed Clinical Social Worker

Endocrinologists James Mack, MD, and Christopher Sorli, MD, have received recognition from the National Committee for Quality Assurance/American Diabetes Association Diabetes Physician Recognition Program, which is valid for three years – March 2010 to March 2013, for providing quality care to patients with diabetes.

Billings Clinic offers diabetes education programs in Billings in Adult Endocrinology, Billings Clinic Pregnancy Diabetes Clinic (Maternal Fetal Medicine), and Billings Clinic Pediatrics (downtown); also Billings Clinic Cody, Billings Clinic Miles City and Bozeman OB/GYN have been recognized by the American Diabetes Association for Quality Self-Management Education*.

Diabetes Self-Management Education

- Learn what diabetes is and how to manage
- Learn how food affects your blood glucose and how to eat healthy for a lifetime
- Learn the benefits of activity and how to make it a part of your life
- Learn how your medication works
- Learn how to monitor and interpret your blood glucose
- Learn to prevent complications
- Learn skills for managing a lifetime disease
- Most insurance plans and Medicare/Medicaid cover diabetes education. Check with your plan.

*The American Diabetes Association Recognizes this education service as meeting the National Standards for Diabetes Self-Management Education.
